## **Infrastructure Planning and Facilities –** Low Wattage Heaters

Low-wattage personal space heaters can be used in your space to accommodate temperature discomfort, and have been approved to meet university efficiency and safety standards. Use the following steps to find and select your heater:

- 1. Call IPF at (517)353-1760 to receive an evaluation of your space and get approval to purchase a low-wattage heater.
- **2.** After you have received approval, visit <u>ipf.msu.edu/green/practices/space-heaters.html</u> and select "Spartan MarketPlace personal heaters purchase guide (PDF)" under the "Related Links" tab on the top right side of the webpage.
- 3. Select one of the approved low-wattage space heaters to purchase in Spartan MarketPlace.
- **4.** Purchase the heater through Spartan MarketPlace, which is accessible through your EBS portal. Include the evaluation work order number in the notes section of the order.
