The Avaya 9404 Digital Deskphone is an extraordinary phone for everyday users such as cubicle workers or professors. The phone allows full access to the most common Campus PBX features and features large, eye-friendly displays; paperless, all-digital labeling; and a high quality, two-way integrated speakerphone.

**BENEFITS**

- Self-labeling buttons eliminate paper labels and ensure accurate and immediate labeling of system features. Labels also may be modified by the end user to better fit individual requirements.
- Headset jack supports wide array of wired and wireless Avaya headsets.
- Easily customized to meet specific department needs.
- Large capacity contacts and call log functions.
- 10 fixed-feature keys, 4-way nav cluster and 4 softkeys to simplify and speed operations.
- E911 compatible and ready.

**KEY FEATURES**

- 10 fixed feature buttons
