The Avaya 9641G IP Deskphone is ideally suited for people who spend considerable amounts of time on the phone. The phone allows full access to the most common Campus PBX features and includes a high quality wide-band speakerphone.

The 9641G supports enhanced productivity by improving call control and management through a graphical color display and large touch screen that anticipates user intentions and makes contextual menus, prompts and instructions easy to read.

**BENEFITS**

- Facilitates access to call information through an easy-to-read, high-resolution color touch screen.
- Headset jack supports wide array of wired and wireless headsets.
- Speeds completion of common tasks with intuitive prompts on the touch screen.
- Red LEDs on speaker, mute, headset, message and history.
- Feature button labels may be modified by the end user to better fit individual requirements.
- Easily customized features to meet specific department needs.
